PRODUCT: Clearitas® 401

MANUFACTURER: Blue Earth Products® 14580 West 99th Street, Lenexa, KS 66215 Phone: 1.800.259.4472

BENEFITS: Clearitas 401 improves distribution infrastructure and improves the overall water quality in chlorinated and chloraminated commercial, industrial and agricultural water distribution systems by removing scale deposits, maintaining chlorine residuals and reducing disinfection by-products (DBPs). Clearitas 401 has been shown to effectively lower chlorine demand and reduce DBP formation in many commercial, industrial and agricultural settings. Clearitas 401 does not change water corrosivity or affect lead and copper levels.

DESCRIPTION: Clearitas 401 is an NSF certified water supply additive, and is the stable patented product of an advanced electrocatalytic chlor—alkali process that more effectively oxidizes certain organics present in distribution systems than other forms of chlorine. Clearitas 401 is used in commercial, industrial and agricultural drinking water treatment.

PROPERTIES:

Composition	Advanced hypochlorite derivative (0.05%)
Weight	8.4 lbs. per gallon
Color	Colorless
Odor	Slight chlorine odor/odorless in treated water
pH	10.5

Refer to SDS for more detailed information

APPLICATION: Clearitas 401 is used, in conjunction with traditional disinfectants, in commercial, industrial and agricultural facilities at dilution rates ranging from 1:2,000 to 1:10,000.

STORAGE: Store Clearitas 401 in opaque containers and avoid exposure to direct sunlight.

DISPOSAL: Clearitas 401 should be disposed of according to local, state and federal regulations.

SAFETY: Clearitas 401 is relatively environmentally friendly, yet is considered corrosive and must be handled according to the Safety Data Sheet.

NSF/ANSI: Standard 60 Certified – Corrosion and Scale Control
G4 - USDA approval program meeting FDA 21 CFR
Star K – Kosher Certified

WARNING: Handle all Blue Earth Products' Clearitas products according to Safety Data Sheets.
